

Lito Leaf Art

These Tiny Scenes Depicted on Leaves Are So Precious!

We all know the kind of beauty and wonder nature can provide to us and inspire in us. Artists use flowers to create landscapes or trash to create a zoo filled with animals. Their works leave us calm and tranquil. Another artist from Japan, who goes only by the name Lito Leaf Art, has been making waves in the Instagram art world with his incredible leaf art, carving small and intricately crafted scenes and figures into nothing more than ordinary green leaves.

The results are beyond phenomenal and show you just how far your imagination can go with a little help from nature.
