2023 ANNUAL MEETING

Welcome!

2022 - The year in review

2023 - A year of fresh and
exciting opportunities

Welcome 2023! Here we are, 20 years from the inception of Dataw Visual Arts Club - what an exciting time! We have so much to celebrate and so many things to offer our membership this year. Thank you for taking this journey with us as we begin some new traditions as well as continue some of our old favorites. And at the end of this day, let us congratulate our new VAC officers.

2022 was a year to regroup from Covid fog. We were finally able to gather again to celebrate the arts, learn new things, laugh, and meet new people. Our island membership is ever evolving and has brought many younger people into our mix making for some great energy and creativity. We welcome you!

One new offering this year is a celebration of our Dataw artists. Beginning in February and continuing each month, Marie Doyon will be interviewing and writing about feature artists and sharing their story with the membership. Kicking off the feature artist celebration, Marj Shymske will have her fireside chat with our Jennifer Ethier. We hope you enjoy getting to know Jennifer better and hearing about her creative path.
