

Landscape Photography

by Dick Golobic

*The ideal landscape would be 100% natural
with no man-made objects and would be...*

*Quiet
Pastoral
Tranquil
Rustic
Serene
Idyllic*

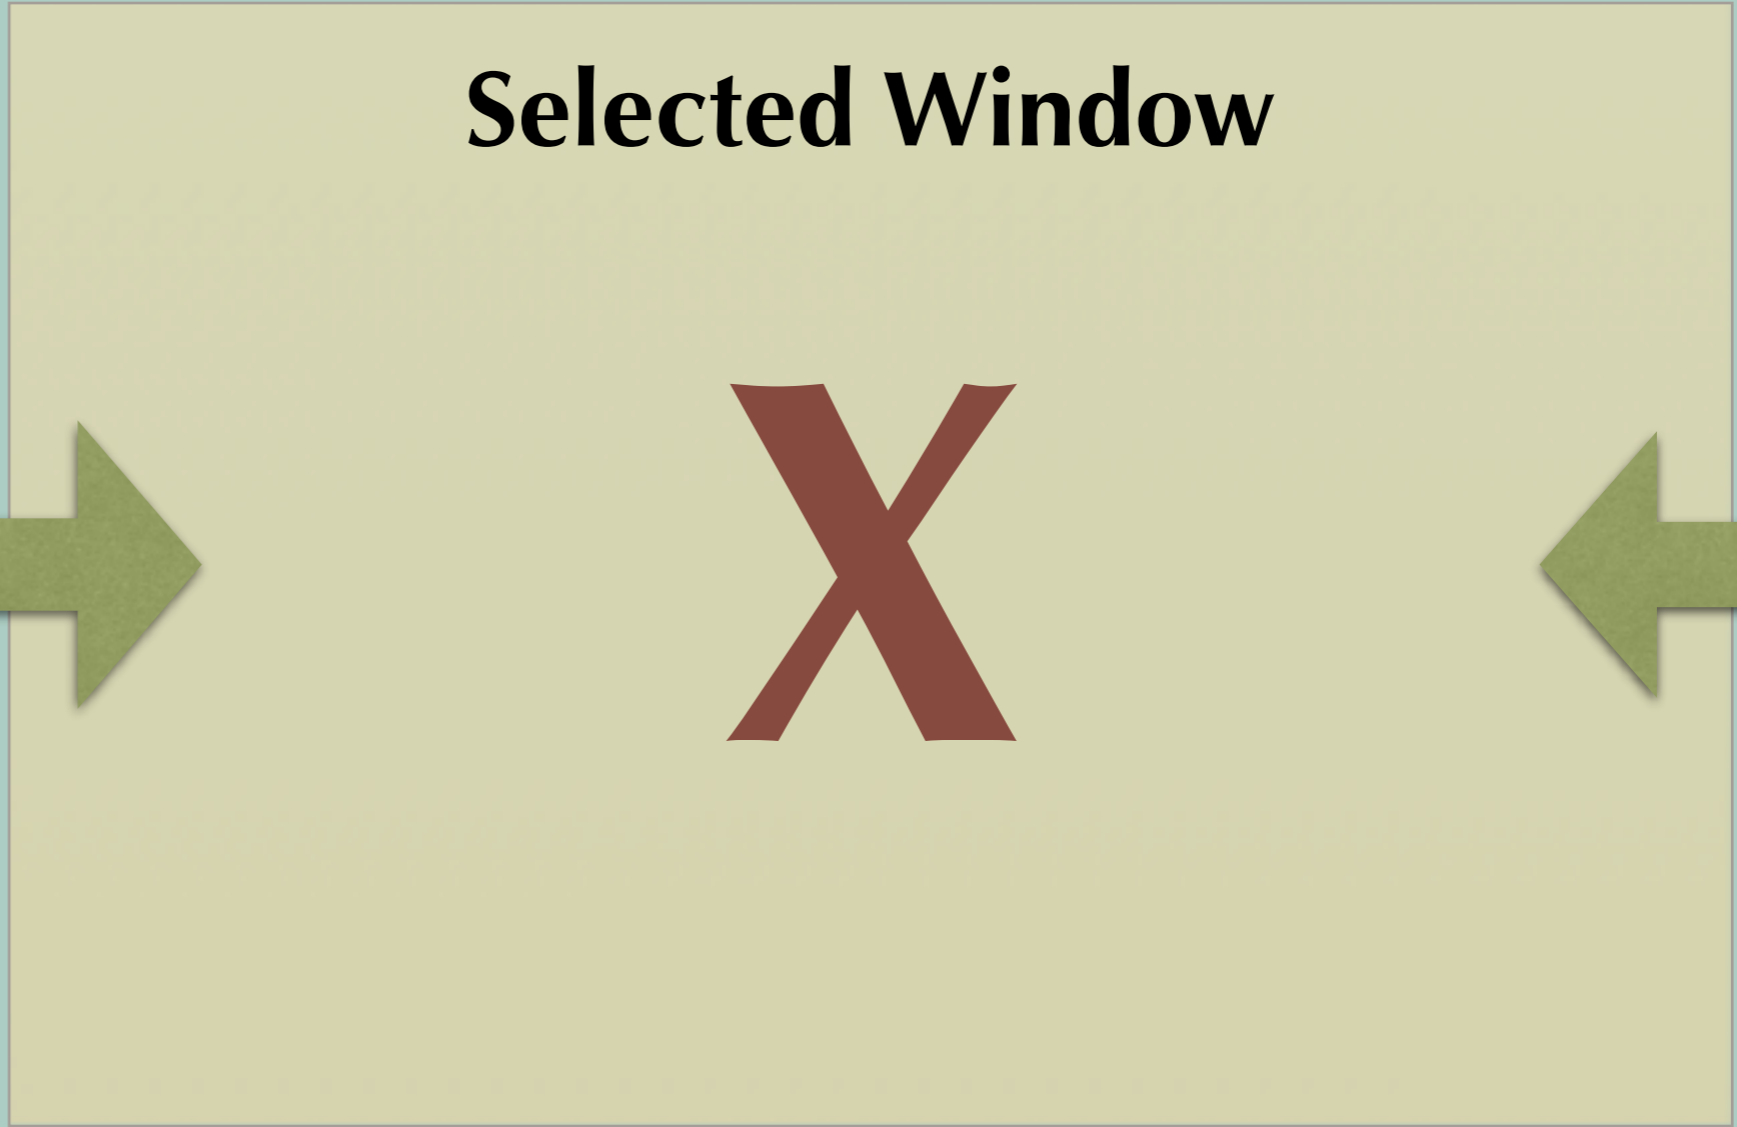

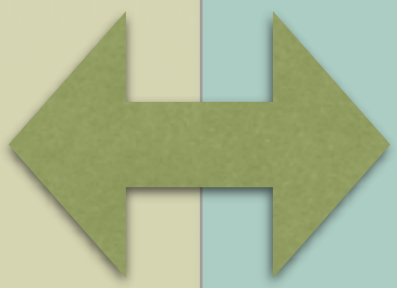

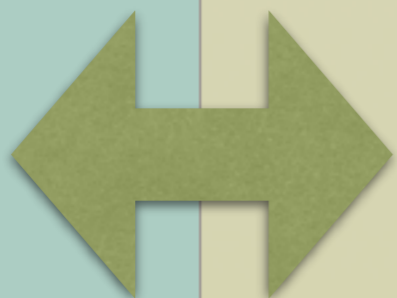

Using most of Ellen's Composition Points...

Light
Framing
Leading Lines
Textures & Patterns
Color
Viewpoint
etc.

Big Picture

Selected Window

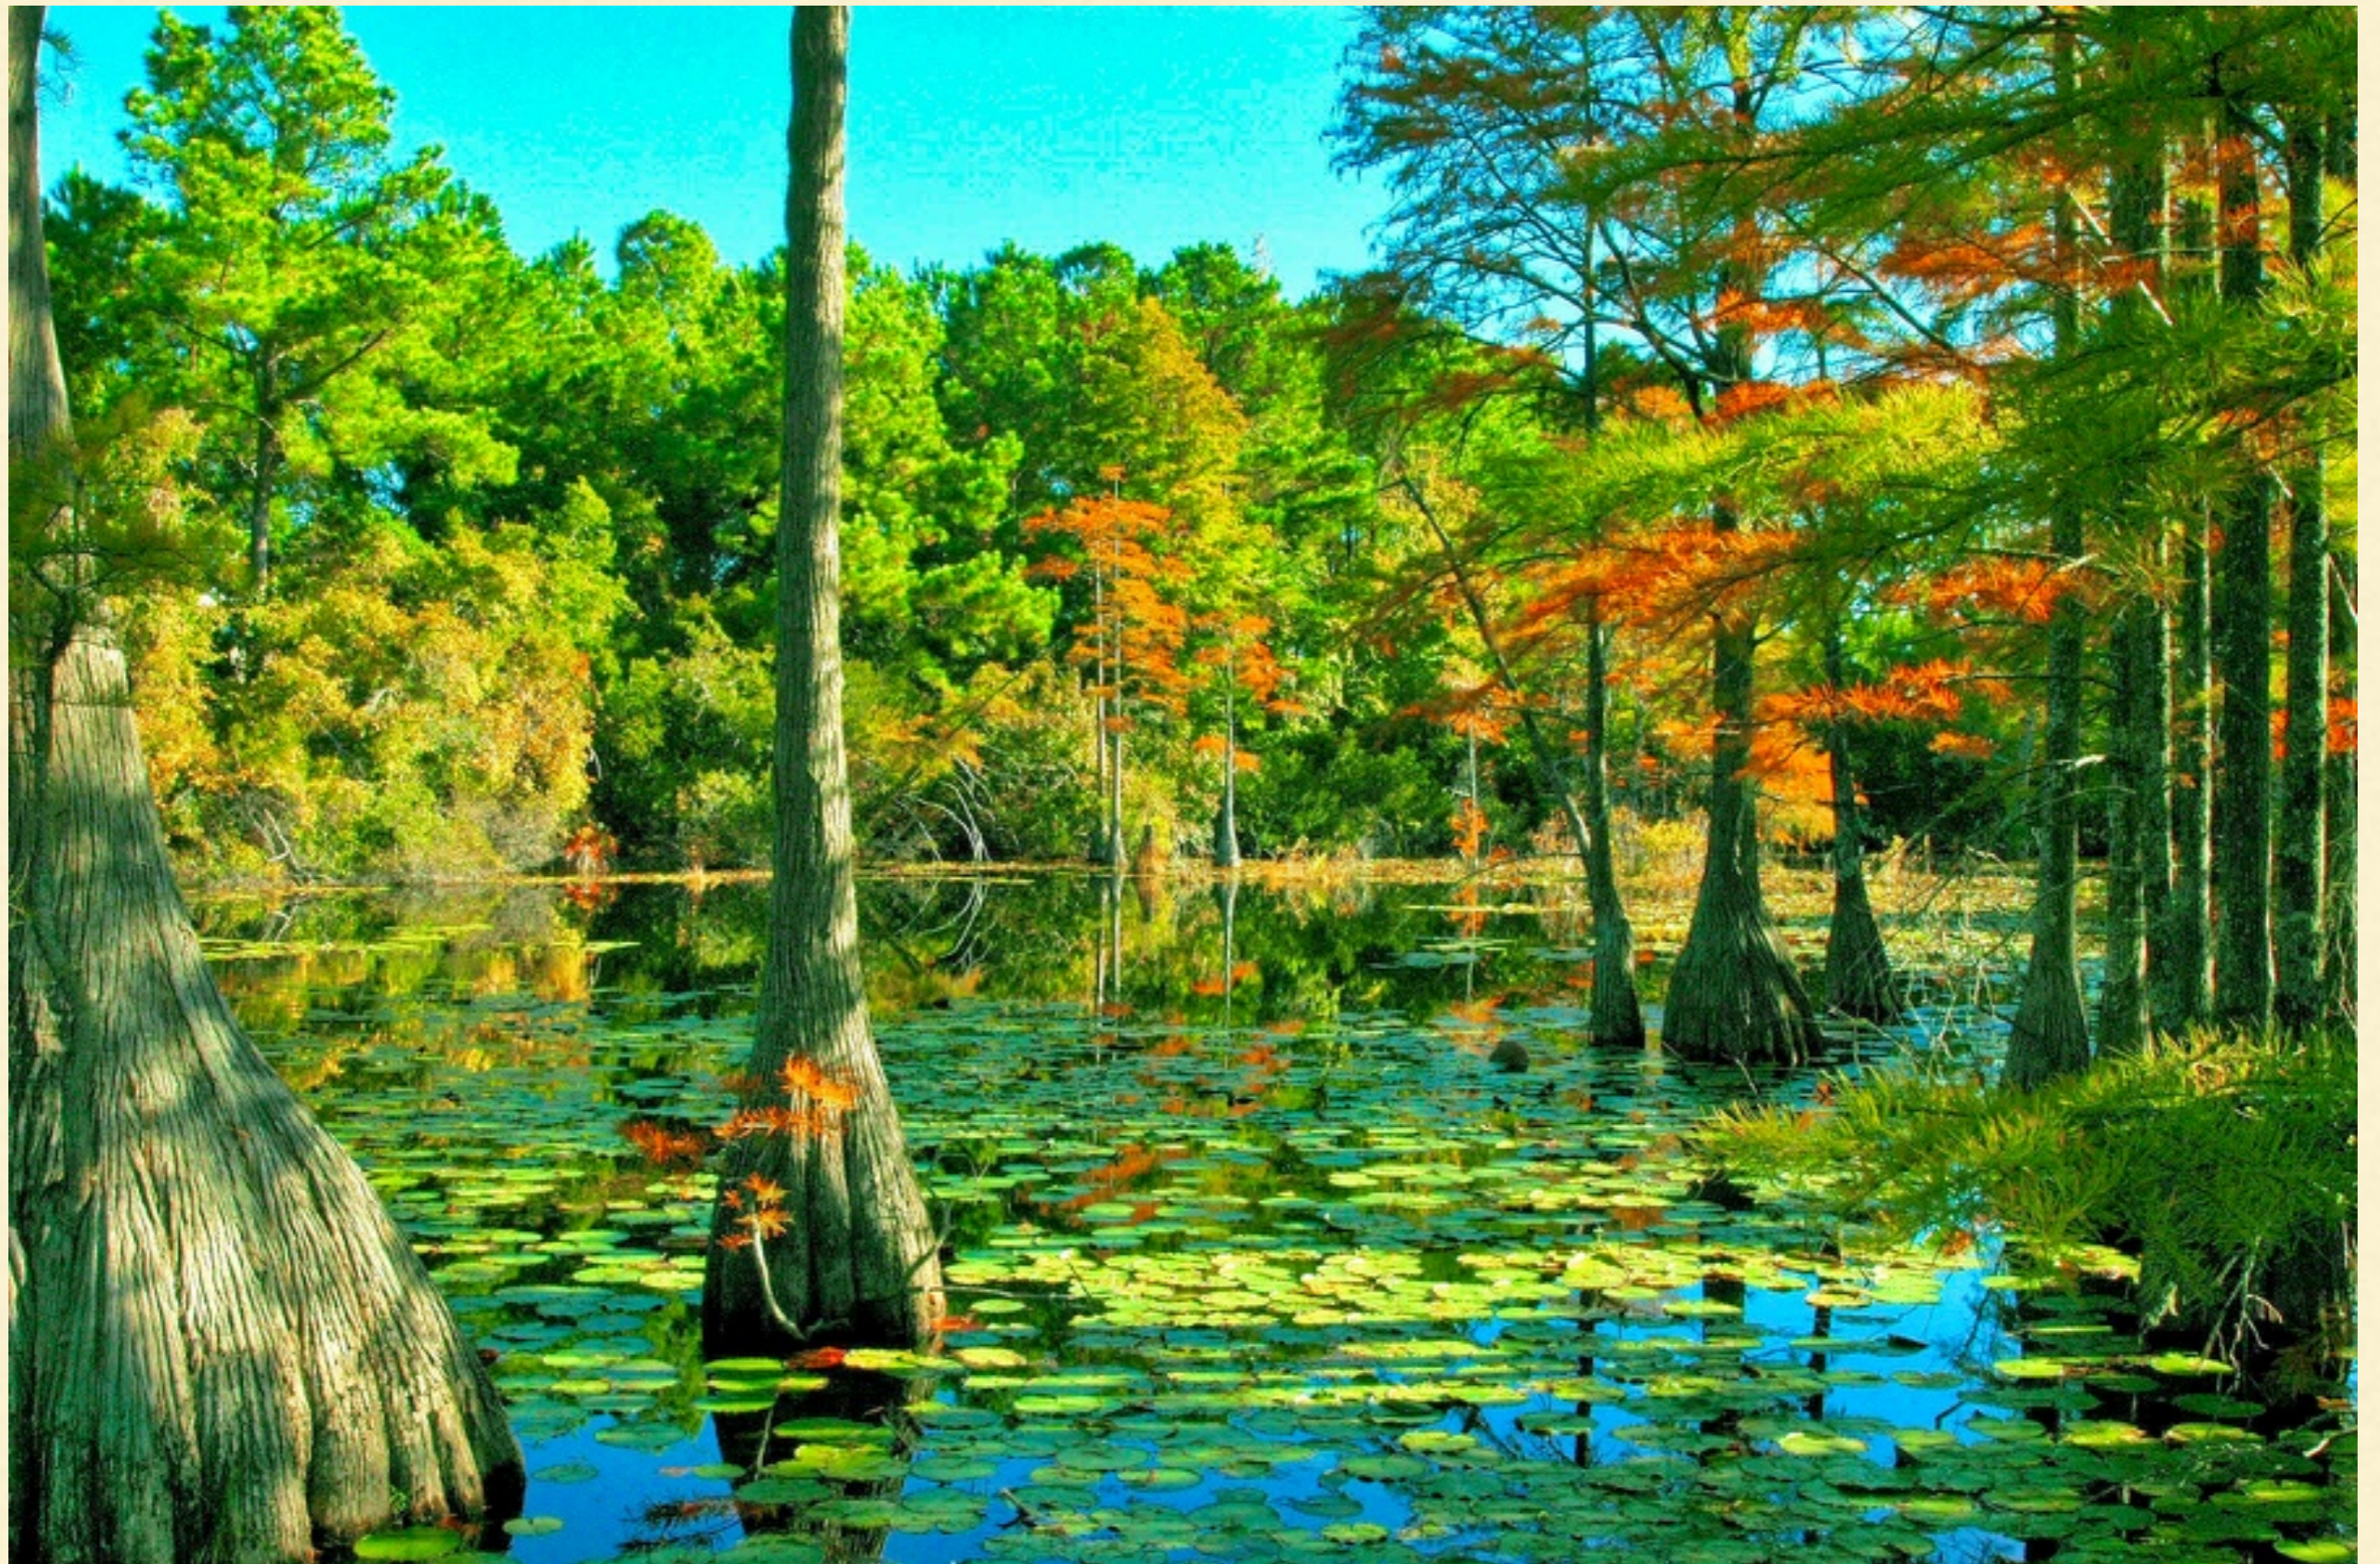

Landscapes provide a vast canvas...

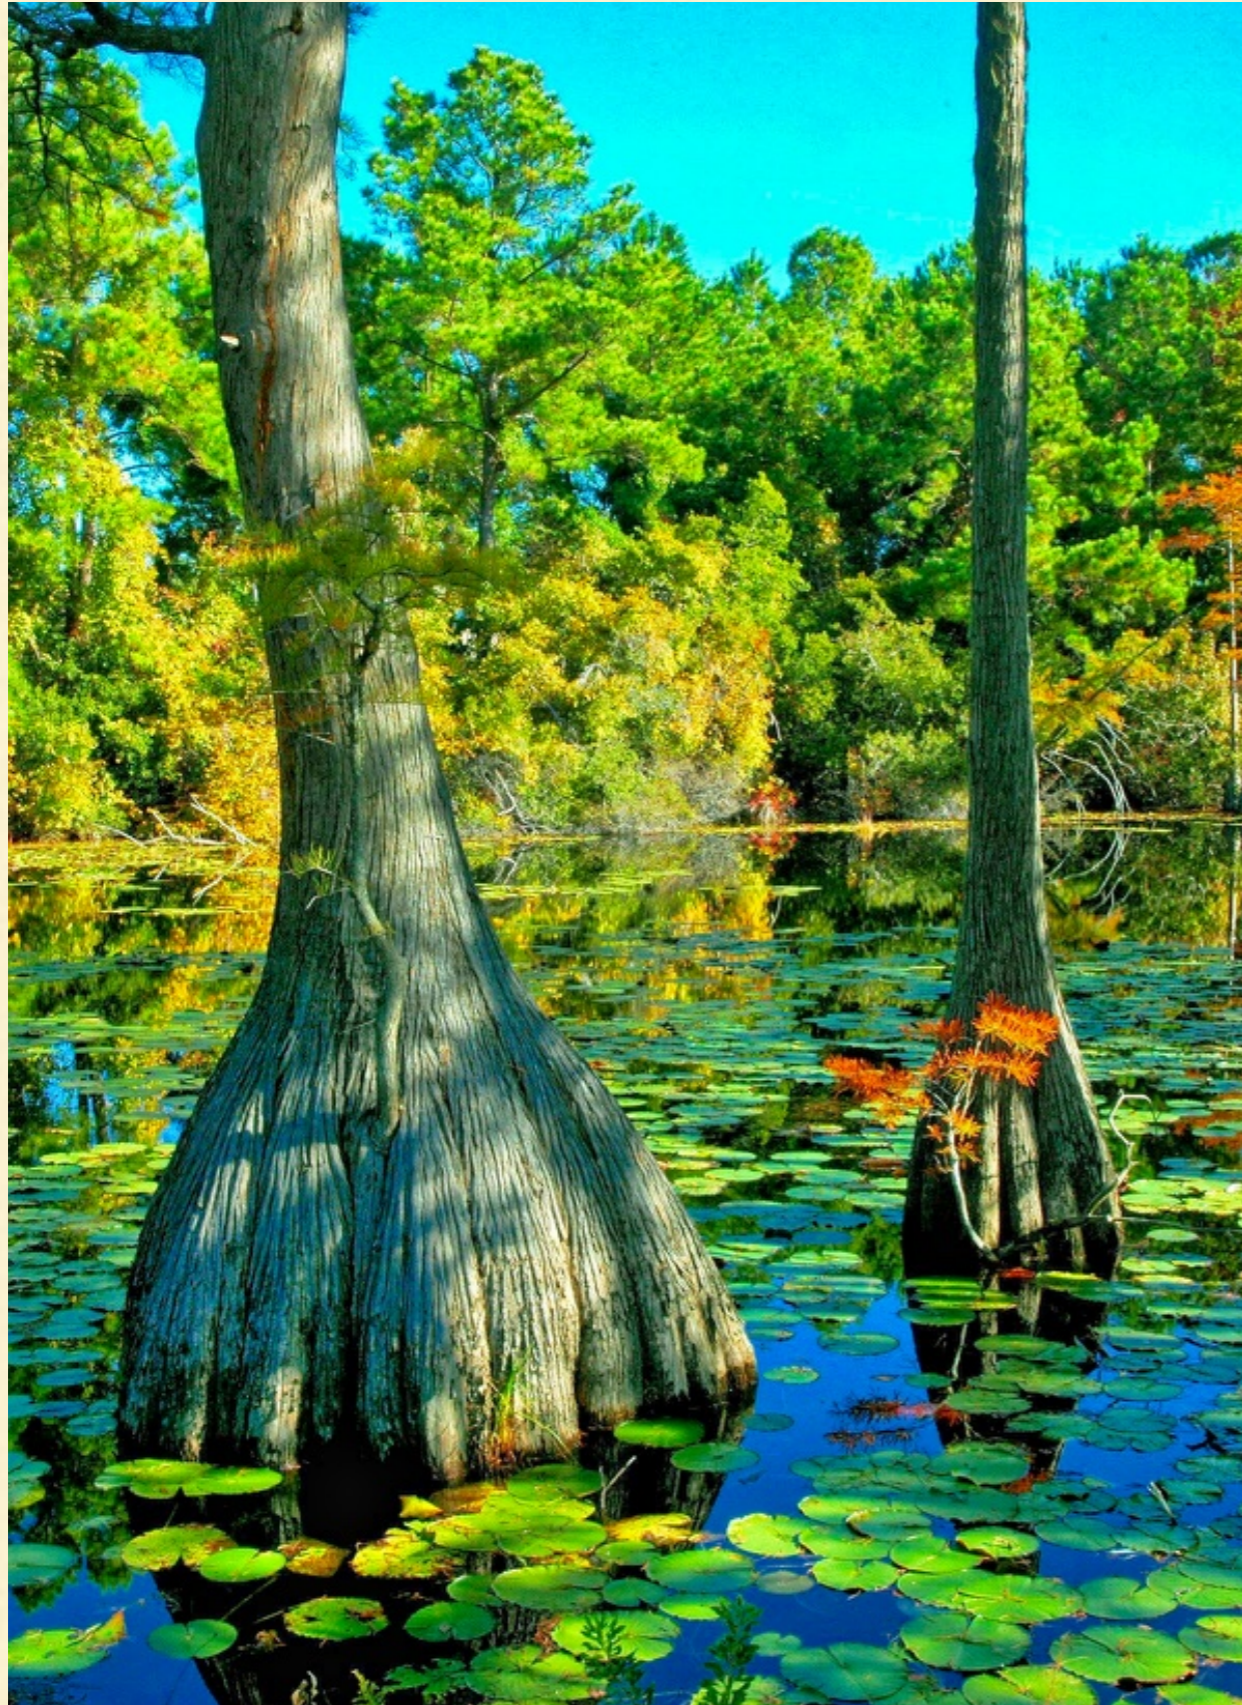

...where I visualize a window and then work sides in the viewfinder cropping to add elements that enhance the photo or to eliminate distracting elements.

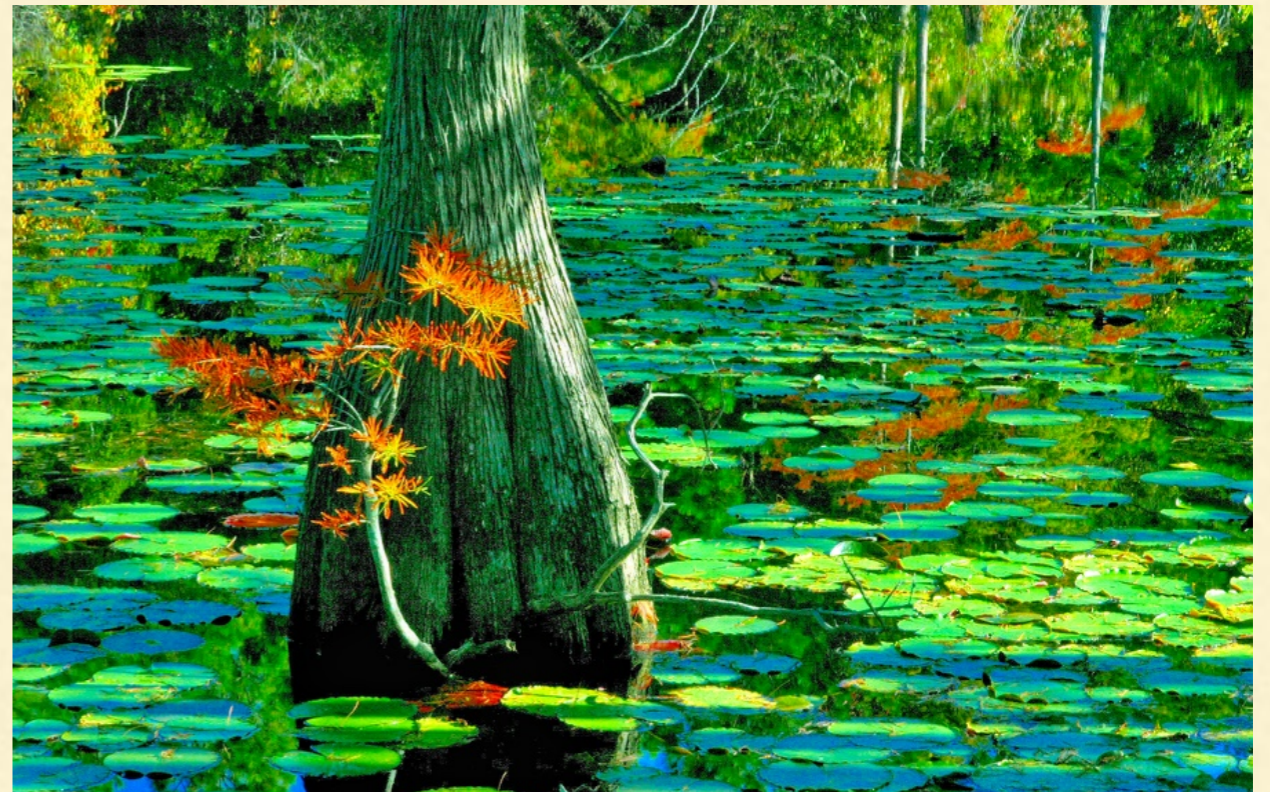

**#8
Cotton
Dike**

**Cropped
wide to include
sand trap and
extra water**

Then I visualize smaller windows in the original bigger window to crop into interesting details rather than cropping into photo in post and losing fidelity.
