CECROPIA MOTH - NATURE'S PAINTED TAPESTRY
...Bill Riski

Bill Riski's Cecropia Moth Backstory...

This moth has a special story. I collected it in downtown Cleveland, Ohio, around 1967. Captivated by its beauty, I carefully mounted it in a shadow box and asked my dad to hang it on the wall of our family room, where it sparked many conversations. Over thirty years, life evolved—I graduated from college, married, started a family, and retired from the Air Force in Virginia. I retrieved it from my childhood home in Ohio to display in our new Virginia home while I started a second career. Another twenty years passed, and we purchased our retirement home here on Dataw Island.

After fifty years, I chose to open the shadow box, photograph the moth, and finally part with it.

Today, looking at this photo evokes cherished memories from six decades ago of my childhood and my parents, who are no longer with us.
